

Breast Cancer Awareness Project

Please help us raise money for free mammograms for low-income women in St. Joseph county!

To show his support, Dan Myers has committed to wear pink every day in October in return for pledged donations. Dan challenged the Sociology Department to come up with our own creative way to raise money. The students of the CREO training seminar have responded to that challenge.

Several students and professors in the department have promised to perform certain tasks if we, as a department, meet their fundraising goals. Therefore, we are asking you to donate generously toward these goals!
